Dietz's Diamond Oil.

WE NOW OFFER TO THE PUBLIC in full confidence a new article of

KEROSENE OIL,

Which we warrant in every particular to be

Superior to any other Oil

ever brought to the San Francisco market. It has been thoroughly tested in all the different Patent Coal Oil Burners, and found to produce

More Light and Burn Longer

by one-third, than any other oil in use.

Among the many advantages of this KEROSENE OIL over other oils, are: First, that it is perfectly NON-EXPLOSIVE, and can be used with perfect safety in all kinds of LAMPS. Second, It is free from all objectionable and unpleasant smells, and burns with a clear white brilliant flame. We cordially solicit the public and FAMILIES to give this Oil a trial, and once tried, we feel confident it will gain a preference over all other Oil for economy as well as its superior burning qualities.

In order to protect ourselves against Counterfeits we have placed a brand on each can and case, which will be known as

DIETZ'S DIAMOND OIL.

It is now offered at wholesale and retail at

505 Front street,
Between Washington and Jackson streets,
And at Branch Store, 96 Second street,
2d door from Mission, San Francisco.
A. C. DIETZ & CO.

We have on hand a large stock of

COAL OIL LAMPS,

which we are selling at New York prices. Also,
Camphene, Coal Oil Fluid,
95 per ct. Alcohol, Turpentine,
Lard, Sperm, Polar, Rape Seed,
Neat's-Foot, Linseed, China,
and other Oils, etc., etc.

N.B.—Country Dealers supplied on the most liberal terms.

The Mines of Idaho

The mines of Salmon river and tributaries which we term the "Mines of Idaho," are still attracting, if not entirely absorbing, the attention of our citizens, and not only our citizens, but the people throughout the length and breadth of the Pacific coast. And we will not stop here, for by late accounts from the East we learn that notwithstanding the war and its consequent exciting interest and demands upon the public energy and occupation of the people in those States, still the many glowing accounts of the previously unheard of richness of these mines are having its effects upon the minds of thousands, which, if continued to prove true, will result in bringing to this coast, if possible, a greater influx of adventurous, hardy gold seekers than that which poured into California in '49 and '50. Should the evidences of the almost fabulous accounts of treasure which this country is supposed to contain still continue to become more and more manifest by the daily arrivals of hundreds, yea thousands of pounds of the precious ore, (and we have every reason to believe they will be,) our citizens may expect and not only expect but will realize the effects of such a demonstration in the [illegible] rush, even to overflowing of men and capital to this country. Our hills and mountains, valleys and plains will soon be teeming with countless thousands of toiling, honest laborers, our cities, villages and towns will be filled with innumerable mechanics, merchants, traders and manufacturers, and the busy hum of industry, thrift and prosperity will greet the ear and gladden the sight upon every hand. We have not yet begun to realize the great change that will be made in a short time. That which we have already felt is but a faint forerunner of what is yet to come. Only think what the effect would be if even one hundred thousand people were added to the population of this State. Oregon will most certainly realize such a result provided these mines continue to hold out good.

Washington Territory will also soon become a State, and still another State will soon spring into existence, as did California, without ever knowing what a Territorial form of government is. We have but little doubt that Washington Territory will soon be divided, making the Cascade range the boundary between the present east and west portions of that Territory, and we further believe that the western portion will still retain the revered name of WASHINGTON, while that of the eastern will adopt the beautiful name of IDAHO; therefore we only intended to keep up with the rapid progress of events when we gave the name of "Idaho" to all the mining region which is now embraced within the boundaries of Washington Territory.

And this is not all yet! The great Pacific Railroad is to be built—*the shores of the Atlantic* are to be bound to the shores of the Pacific by the strong iron chain of a great inland commerce, the time is soon to come when the powerful iron horse shall bound with gigantic speed from shore to shore—when the shrill whistle from his fiery nostrils shall announce to the people of the Pacific that their brethren of the Atlantic are coming to greet them in their new homes and partake of their happiness and prosperity. Yes, we say, the time is not far distant when "Hell wrapped in harness shall startle the buffaloes on the plains," and the iron wheels of strength shall swiftly sweep the deserts, bearing upon their axles the furs and grains of Russia, the substantial and beautiful manufactories of Europe, the fruits and spices of India and the corn, hemp, rice and tobacco, cotton and sugars of the Atlantic States, in exchange for the teas, rhubarbs, porcelain, copper and lacquered wares of China and Japan.

This is no idle dream or fancy sketch, but will surely come to pass. Then let the people of Oregon prepare for this great advent. Let us take courage and cheer up. Many of us have long hoped and expected a better time coming. We have been subjected to many hardships and privations, many misfortunes and disappointments. We have labored hard to cut down the brush, kill the snakes and subdue the country preparatory for this happy result. We believe that the time is near at hand when we shall realize our hopes and receive at least a partial reward for our labors. "There's a good time coming," wait a little longer.

WARM WEATHER.—Yesterday was a very warm day—*one not fit* [illegible] business in the city quite dull in consequence.

By Last Night's Mail.

No News from the East

There is still nothing from the East. *The* Sacramento *Union* says:

"The Eastern wire obstinately continues down beyond Salt Lake. We are compelled to fall back for the present upon the news received so generally by Dixie democrats to the effect that the Lincoln Government has been fully beaten, and that John Bull is about to raise the blockade. There is a wonderful exhibition of clairvoyance among that small and select party whenever the wires give out."

California News

SAN FRANCISCO, May 30.—The Grand Jury found a true bill of indictment against Chas. L. De Brittain for the murder of D. F. Morton.

Raphael and Yeonestre, two Lascars, got into a fight about a woman at the Lagoon last night, and one of them fatally stabbed the other, and was arrested.

Less than 100 passengers are booked for the Panama steamer to-morrow.

Money is easy. Gold Bars are selling at 800.

The effort to raise the steamer *Nevada* has been abandoned.

Land Troubles in San Joaquin.

STOCKTON, May 30th.—Serious trouble are expected at Waterloo, eight miles from town, to-morrow. The settlers are fortified in a stockade, large brick granary. Sheriff Heckle will go out with a large force to dispossess them.

The Stockton Union Guard will march for Waterloo to-morrow morning at eight o'clock. The Sheriff has summoned a number of other citizens to accompany them. The Settlers are said to have artillery. Both parties are determined.

ELECTION RETURNS.

PROTECTION TO EMIGRANTS.—We are pleased to learn that Gov. Pickering, of Washington Territory, has been taking the necessary steps to secure a sufficient escort for the immigration across the Plains this summer, as a protection against the savages and other hostile and dangerous bands that have *infested* the route for the past several years. Orders have *been* received from Gen. Wright, by request of Gov. Pickering, directing Col. Steinberger to send out an efficient force detailed from his command for that purpose.

CONFESSION.—We have received a copy of the confession of Andrew J. Pate, the murderer of George Lamb and two others, who was executed at Albany, Oregon, on the 27th of May, 1862. It gives a brief account of his early history, and the usual rough life of a roving cosmopolite who has had no home or particular friends—interesting to those who read such disclosures. Price twenty-five cents, to be had at McCormick's Book Store.

"THERE SHE BLOWS!"—The *Times* is again heavily freighted with "gas"—*vide* the story of Leland's taking out $1,500 dust daily, besides many *other equally* fabulous monstrosities. It is an easy matter to guess who was the editor of yesterday morning's issue.

PIKE'S PEAKERS FOR SALMON RIVER.—The Salt Lake correspondent of the Sacramento *Union* says that the miners at Pike's Peak are leaving in large numbers for Salmon River. He says:

"The mail conductor from the north reports meeting wagons and small companies every day wending their way to the new diggings. I expect that it will carry off the floating population from the Territory. The settled Mormons will abide 'counsel,' and let the 'filthy lucre' alone. How they got through I know not, but two wagons from Pike's Peak are reported to have passed through here yesterday."

The Prince of Wales is said to have been privately married to a pretty Irish lassie at the Curragh of Kildare. Such a marriage is unlawful, but the Prince is said to be obstinately true to his heart's bride, and writes to her daily, now that he has been compelled to leave her.

The new U. S. screw sloop of war *Sacramento* was launched at the Portsmouth Navy Yard the last of April. She is pronounced one of the finest specimens of naval architecture afloat.

REBEL PRISONERS.—Governor Sam Houston's son was wounded at the Pittsburg battle, and is a prisoner at St. Louis; also, Pierre Soule's son is a prisoner.

THE FOURTH OF JULY.—A meeting of the citizens generally of Portland is call[ed] at the Recorder's office this evening at [illegible] o'clock for the purpose of devising the proper ways and means to celebrate the coming Fourth of July in due and ample form. It is hoped that all who feel an interest in this matter will be in attendance and we shall expect to see the house crowded. We got up a pretty good celebration last Fourth, let us see if we can't get up a better on this time. The occurrences in our national history since last Fourth of July has given us greater reason to rejoice than we then had and renders more [illegible] the commemoration of that day.

ANOTHER CHANGE.—We learn that the days of sailing from San Francisco of the two steamers for this place and Victoria have been again changed to the 4th, 12th, 20th, and 28th of each month. The cause of this change has been to better suit the time of arrivals and departures of the steamers running to Panama and the lower coast. The *Brother Jonathan* did not sail until the 4th and will probably arrive here some time during to-day.

FROM THE DALLES.—The *Idaho* arrived last evening about six o'clock from the Cascades. No later news from the mines. The express did not connect at the Dalles.

We are sorry to learn of the death of M[illegible], the engineer of the *[illegible]*. He [illegible] on Wednesday last from effects of bilious disease.

FOUL AIR.—In our peregrinations around town we have had to undergo the disagreeable necessity of having our olfactory nerve grossly insulted by the foul and filthy stench which is met with in several localities of the city. Can't our Street Commissioner attend to this matter? Should the hot weather continue, which is altogether probable, it will such [illegible] various receptacles of filth will certainly engender disease and sickness.

POSTPONED.—A complimentary benefit having been tendered to Mrs. W. C. Forbes, and the time fixed for to-night, as appeared in our cotemporaries of yesterday, we are now requested to State that in consequence of Mrs [illegible] not having sufficiently recovered from her recent severe indisposition, the time for giving this benefit has been postponed until [illegible]day evening next.

FIGHT.—Another fight is said to have transpired yesterday morning between two and [illegible] o'clock, in front of a saloon down town, in which one of the parties was seriously stabbed.

SHIPPED.—About all the goods and freights in transitu or destined for the upper Columbia trade, have been shipped from the ware[houses] in the city, and these houses are once more empty. Ten days ago nearly all of [them] were filled to overflowing.

THE RIVER AGAIN.—The water in the Willamette has remained in *statu quo* for the last [illegible] days, neither rising nor falling one half [inch] during that time.

PERSONAL.—We have had the pleasure of [an] acquaintance with Gov. Wm Pickering, [of] Washington Territory, and are highly pleased with the gentlemanly appearance and [gent]al bearing of this gentleman. We doubt not he will discharge the duties of his office with credit to himself and honor to that [Terr]itory.

OUR ADVERTISEMENTS.—By reference to our new advertisements it will be seen that an[other] respectable hotel has been opened on [the] corner of Washington and Second streets, entirely new, neat and clean. The table will be supplied with the best the market affords. If you want a good square meal, and a clean bed to sleep in, give Mr Loo a call.

The Cascade Mountain Road, by way of the old Barlow emigrant trail, is now opened and in good traveling condition. Parties going [over] the mountains are recommended to [take] this route.

If you take sugar in your whiskey—or in your coffee, see that it comes from the San [Francisco] Sugar Refinery establishment.

JEFF. DAVIS.—One of the recently intercepted letters from Jeff'd [illegible] says that the [writer] was at Church the previous Sunday and saw Jeff. Davis there. She says that he looked shocking bad but one and looked in wretched health, his face being more like a corpse than a living organism.

Much sickness still prevails among the children and youths of Vancouver, and several deaths have occurred. The complaint is said to be a species of the scarlet fever accompanied with putrid sore throat.

GUERRILLA WARFARE.—As a last resort, the rebels threaten to organize guerrilla bands for service in the mountain districts of the South. Indeed they have already commenced this system in Virginia and Tennessee. They have the advantage of an intimate acquaintance with the peculiarities of of the country, and having equipped themselves for rapid movements are enabled to surprise and cut off detachments and to annoy our outposts in a serious manner. But the Government has already taken measures to check this system before it reaches a more formidable development. The bandits of the Blue Ridge will not furnish many exploits for the use of future Sylvanus Cobbs. After the great armies of the rebellion shall have been defeated, these guerrillas will be treated as felons, as the rule of civilized warfare authorizes us to serve them. In the meantime, a number of our own officers, who delight in partisan service, will be let loose among the mountains. The Western men would prefer this style of fighting, and from their border experience, they can hunt the Virginians into hasty submission. Colonel Geary, a very active and rapid leader, has been ordered to the Shenandoah region for the especial purpose of hunting down the guerrilla bands that have become so numerous. Fremont has several good partisan officers in his command. In Tennessee one Colonel Morgan seems to be the chief of the guerrilla chivalry, and the one who has obtained the greatest success. The enemy have begun this work too soon. Before they can get their system of depredation fairly organized, the Government will have completed arrangements for crushing them out. The cotton States present no eligible theatre for guerrilla operations. The swamps of the Carolinas once haunted by Marion and Sumter, may be considered good rallying centers for the defeated chivalry, but those dark morasses are unpleasantly tenanted by fugitive slaves, and the scions of first families have no fancy for Marion's potato diet and a soft couch among the alligators. The guerrilla warfare will not be quite as effective or as lasting as the operations on a grand scale organized a year ago.—*Sacramento Union.*

RESERVES.—Our telegraphic advices assure us that the Government intends to organize a reserve corps of fifty thousand men. The movement is one of wise precaution. Indeed, the force required for this purpose should have been in camp some months ago. After the Bull Run disaster, when the three months men were returning home and the regiments that remained at Washington seemed insufficient for the defence of the Capital, Pennsylvania came forward, with an entire division, consisting of twelve regiments of infantry, one of cavalry, and six field batteries, under Gen. M'Call, which the Governor of that State had caused to be raised and equiped as a reserve corps. New York and the New England States had as many more regiments ready for service. Thus the army of the Potomac was soon rendered even more numerous and efficient than it was before the 21st of July. Concerning the importance of reserves, Baron Jomini, a standard authority, has the following: "Reserves play an important part in modern warfare. From the executive who prepares national reserves, down to the chief of a platoon of skirmishers, every commander now desires a reserve. A wise General always provides good reserves for its armies, and the General uses them when they come under his command. The State has its reserves, the army has its own, and every *corps d'armee* or division should not fail to provide one. Napoleon never failed to organize these reserves in his campaigns." The theater of operations is so vast that we have nearly our whole army in active service. Those corps which are not in the field are holding positions of importance. We need the proposed reserve.

BROTHER JONATHAN.—The origin of this term, as applied to the United States, is said to be as follows: When General Washington, after being appointed Commander in Chief of the army of the Revolutionary War, came to Massachusetts to organize it, and make preparations for the defense of the country, he found a great want of ammunition and other means necessary to meet the powerful foe he had to contend with, and great difficulty to obtain them. If attacked in such a condition, the cause at once might be hopeless. On one occasion at that anxious period, a consultation of the officers and others was had, when it seemed no way could be devised to make such preparations as were necessary. His Excellency, Jonathan Trumbull, the elder, was then Governor of the State of Connecticut, on whose judgment and aid the General placed the greatest reliance, and remarked, "We must consult Brother Jonathan on the subject." The General did so, and the Governor was successful in supplying many of the wants of the army. When difficulties afterward arose, and the army was spread over the country, it became a by word, "*We must consult* Brother Jonathan." The term Yankee is still applied to a portion, but "Brother Jonathan" has now become a designation of the country as John Bull has for England.

THE OLD MAN'S SECRET.—An aged clergyman, who had known not one day's illness was asked his secret. "Dry feet and early rising," was his reply; "these are my only two precautions."

A PRACTICAL ATTORNEY.—An advocate having lately gained a suit for a poor young lady she remarked, "I have nothing to pay you with, sir, but my heart." "Hand it over to the clerk, if you please. I wish no fee for myself," he replied.

HAD A HAND IN THEM.—A runaway thief having applied to a blacksmith for work, the latter showed him some handcuffs and desired to know if he made such kind of work. "Why yes sir," said the fellow, scratching his pate, "guess I've had a hand in 'em."

The manner of carrying the hands is always a sure indication of the mind. Dangling hands belong to a dangling mind; clenched hands to a close and thinking mind.

GEN. GRANT, though hardly forty years of age, has been in seventeen battles, in the most of which he commanded, and he was in the Mexican war.

Of all diseases the first great cause
Springs from neglect of Nature's laws.

To the Afflicted!

Suffer not when a cure is guaranteed in all stages of secret diseases—Self Abuse, Nervous Debility, Syphilis in all its stages, Strictures, Gleet, Gravel, Diabetes, diseases of the Kidneys and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and Ankles, diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the Body or Limbs, Cancers, Dropsy, Epileptic Fits, St. Vitus Dance—and all diseases arising from a derangement of the sexual organs—such as Nervous Trembling, Loss of Memory, Loss of Power, General Weakness, Dimness of Vision with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Liver Disease, Eruptions upon the Face, Pains in the Back and Head, Female Irregularities—and all improper discharges of both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment. Even after the disease has baffled the skill of eminent physicians and resisted all their means of cure. The medicines are pleasant without odor, entirely vegetable, causing no sickness, and free from mercury or balsam. During fifteen years of practice in Europe, the Atlantic States and California, I have rescued from the jaws of death many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a speedy and permanent cure. Private diseases are the greatest enemies to health, as they are the first cause of consumption, scrofula and many other diseases, and should be a terror to the human family. A permanent cure is scarcely ever effected—a majority of cases falling into the hands of incompetent persons, who not only fail to cure the disease, but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid consumption. But should the disease and the treatment not cause death speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in scrofula, tetter, ulcers, eruptions and other affections of the skin, eyes, throat and lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

Self abuse is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system—drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of self abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices, my patients can be restored to robust, vigorous health.

Irregularities and all diseases of males and females treated on principles established by fifteen years of practice and sanctioned by thousands of the most remarkable cures.—Medicines, with full directions, sent to any part of the State, Oregon and Washington Territory, by patients communicating their symptoms by letter.

All business correspondence strictly confidential. Address DR. L. J. CZAPKAY, Medical Institute, Sacramento street, below Montgomery, opposite Pacific Mail Steamship Co.'s office, San Francisco.

Remarkable Instance of Medical Relief

Below we publish the certificates of three of the sufferers from the pangs of disease, who, having recovered their former health, and impelled by gratitude, make known their cases and remedial agent, and their statements are authenticated by a Notary Public. The demands of society heretofore constrained their publicity, and we commend them to the attention of all afflicted.

Certificate.—The undersigned, desirous of acquainting those who are so unfortunate as to be similarly afflicted where a permanent relief of their sufferings may be obtained, feels it his duty to thus publicly express his most sincere gratitude to Dr. L. J. Czapkay for the recovery of his health. Borne down by the distressing symptoms incident to the vicious practice of man, afflicted in the past with the depression in body and mind, unable to [illegible] the most trifling duty imposed upon me by the ordinary avocations of life, I sought the advice of many physicians, who at first regarded it as of little or no importance, but alas! after a few weeks and in several instances months of their treatment I found, to my unutterable horror, that instead of relief my symptoms became more alarming [illegible] being told by one that it was the result of [illegible] and medicine would be of little use [illegible] I despaired of ever regaining my health [illegible] and was about to [illegible] when I called upon Dr. Czapkay, who, after examining my case, prescribed [illegible] which almost instantly relieved me of the dull pains and dizziness in my head. Encouraged by this result, I resolved to place myself immediately under his care, and by a strict obedience to all his directions and advice, my mind became clear and my [illegible] the [illegible] in my back and groins, the [illegible] nervous tremor of my whole frame, the slightest alarm or excitement, the misanthropy, suicidal feelings, timidity and want of confidence in myself, the incapability to study and want of resolution, the frightful exciting and at times pleasurable dreams at night followed by involuntary discharges, have all disappeared, and in fact, in two months after having [illegible] the doctor I felt as if inspired by a new life—that life which but a short time ago I contemplated to end by my own hand. With the view to guard the unfortunate from falling into the snares of incompetent quacks, I deem it my duty to offer this testimony to the merit and skill of Dr. Czapkay, and recommend him to all who may stand in need of medical advice, being assured by my own experience, that [illegible] under his care a radical and permanent cure will be [illegible]

DR. L. J. CZAPKAY, San Francisco—*Sir:* I have used the last of your medicine and do not think I shall need any more, as I feel very well except that I have not entirely got my strength yet, but soon will with the appetite I have. It is just three weeks, you may recollect, since I called at your institute, with my constitution, as I thought, broken entirely, and never thought you would be able to cure me perfectly, but thought you might be able to do [illegible] to ease the pain in my back and head, and strengthen my nerves, so that I would not get excited and tremble at everything. Now that you know what I e[illegible] you may judge of my satisfaction at my complete recovery [illegible] symptoms, and the removal of those sores and [illegible] my skin and the ulcers from my throat, and the [illegible] page of those emissions which you said were [illegible] cause of my sickness. I can hardly tell you [illegible] greatest, my joy or my surprise, for except not [illegible] got my strength I feel as well as any man can [illegible]

CERTIFICATE.—Prompted by an honest desire of [illegible] I wish to lay before the public a case which deserves commendation not only as an act of scientific skill, but [illegible] humanity also. About two years ago, I suddenly, and from causes unknown to me, was seized with a fit of [illegible] which, owing to my inability to meet the expenses consequent upon a thorough medical treatment, and the discouragement which I met with on attempting it, soon became such (I was then led to believe) as to defy the skill of any physician. I was frequently, while in pursuit of my calling, thrown down to the ground without the slightest [illegible] and although insensible to the agonies, I yet [illegible] the miseries of my life, and soon learned to look upon those who would render assistance or shelter me from danger as [illegible] mies who sought to prolong the existence of my [illegible] While in this state, and having, previous to my [illegible] tasted the sweets of life, I once more was induced to attempt seeking aid of a physician, and, by recommendation, called upon Dr. L. J. Czapkay. I told him of my circumstances, and of my inability to reward him for his services, [illegible] of which, however, he at once undertook my case, and with the blessing of God I was once more restored to perfect health. Unable to reward him for the boon which I enjoy at present, and yet conscious of my indebtedness, I [illegible] due to myself and all afflicted, to make the case public, in order that those in need of medical advice may find a physician in whom every confidence can be placed.
